

H&R AGRI-POWER MAKES PRECISION FARMING EASY, ACCESSIBLE & AFFORDABLE

SPECIAL INVITATION

H&R AGRI-POWER'S FARM TECHNOLOGY CONFERENCE

Please join us for our annual Farm Technology Conference on February 23. Products will be showcased from all the leading precision farming vendors with technologies that reduce your input costs and save you valuable time. This conference uses a classroom structure to educate growers on current product offerings and precision farming agricultural equipment.

See the Latest In Precision Farming at H&R Agri-Power!

Case IH Advanced Farming Systems (AFS) from H&R Agri-Power have been at the forefront of precision farming for more than a decade, giving farmers the ability to control the entire crop production cycle. Case IH AFS® tools from H&R include everything you need to achieve repeatable accuracy from sub-inch levels and beyond, reduce overlaps and cut input costs – and maximize your yield potential.

NEW FOR 2012 – AFS CONNECT!

AFS Connect brings the power of telematics to Case IH and competitive vehicles. This intelligent solution provides wireless connectivity to machine data through standard cellular communication. AFS Connect provides fleet management capabilities, performance analysis, and two-way messaging, along with remote access to vehicle parameters via a “virtual display”.

- ✓ Wireless connectivity to AFS Pro 600 and AFS Pro 700 Displays through cellular data
- ✓ Up-to-date information regarding fleet management
- ✓ Virtual display of cab monitors in the office
- ✓ File management received from the field

Find out how you can put the latest advancements in precision farming to work for you at H&R Agri-Power's Farm Technology Conference on February 23. See details on opposite page and at www.hragripower.com
